## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-18, drawn to a template for applying grout, classified in class 118, subclass 504.
  - II. Claim 19, drawn to a process for applying grout, classified in class 427, subclass 282.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case, the product (template) as claimed can be used in a materially different process such as the application of paint or ink to a substrate utilizing the template as a coating mask or stencil.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. The oath in the instant application states that all correspondence should be made with customer number 00003953 which, according to Office records, is Albert Ciriello of Oshawa, Canada. Because the Office has no telephone number of record for Mr. Ciriello, he could not be contacted to request an oral election.

Art Unit: 1762

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
